

Spendency selected as one of 20 procurement startups for Digital Procurement World

Press release

Startup accelerator RiSE chooses Spendency to participate at Amsterdam conference in September 2019

April 5, 2019, 08.00 CEST

STOCKHOLM – **Spendency**, the leading cloud software for spend analysis in the Nordics, today announces its participation at Digital Procurement World in Amsterdam in September 2019. Spendency has been chosen as one of many innovative procurement start-ups to participate in the event.

- "This is a great opportunity for us to expose Spendency to the procurement community and also to get attention from investors and other collaboration partners. We are very happy to have been chosen to participate in the event", says Nils Lundgren CEO of Spendency.

About Spendency

Spendency is the leading spend analysis tool on the Nordic market. It has been rapidly growing since its launch in 2015. As a platform it has over 100 Nordic clients that manage over 50 billion USD in spend. Spendency is the most user-friendly tool in Spend Matters Solution Map and has also been selected one of 20 startups represented at the Digital Procurement Event in Amsterdam in September 2019. Spendency is a privately owned company and was founded by EFFSO, the leading procurement consultancy in Sweden. For more information on Spendency, please go to <http://www.spendency.com>

About Digital Procurement World

Attended by 300 people, DPW is the world's largest digital procurement conference attracting the entire digital procurement ecosystem from enterprise to big tech, startups, investors/VCs, industry analysts, press and bloggers – representing every sector of the industry. No other procurement conference brings this audience together. No other conference is bringing this group of people together. For more information about Digital Procurement World, please go to <http://www.digitalprocurementworld.com/>.
